

Irya's Playground on world tour

The band's collaboration with Cirkus Cirkör has become an international success!

Irya's Playground began yet another extensive world tour with Cirkus Cirkör starting in Tampere Finland on August 7 2009. The performance called "Inside Out" has been a sold out success with over 72,000 tickets sold in Sweden alone.

Irya's Playground is the live band in the performance of Inside Out. They have used a large portion of the music from the debut album "Irya's Playground" in the show and are one of the key ingredients to why the show has received such rave reviews. The album reached a Top 5 position on the Swedish album charts! Reviews have been unanimously overwhelming and the debut has reached wide spread recognition in native Sweden. The collaboration between Cirkus Cirkör and Irya's Playground is planned to tour for at least 2 more years as there is a tremendous global interest in the performance Inside Out as well as Irya's Playground.

A run of 58 shows will be performed this autumn in a total of eight cities, including Moscow, London and New York and will continue to tour throughout all of 2010.

Not only will Irya's Playground perform with Inside Out, but in most cities on the tour you can see Irya's Playground play additional shows where they will headline at clubs in conjunction with the Cirkus Cirkör performance.

At the moment the band is working on their second album which will be completed at the end of the year, with plans for release in January 2010. As the previous album, the music for the new album will be composed, written and produced by Irya Gmeyner and Pange Öberg.
